Hugging Face: huggingface.co/kimsangsilalahi

PROFESSIONAL SUMMARY

CS graduate (GPA 3.78/4.00, Universitas Sumatera Utara, Cum Laude) specializing in LLM applications, RAG systems, and agentic AI pipelines. Anthropic Academy certified (18/18 courses); published a 1,182-item bilingual (ID-EN) AI instruction dataset on Hugging Face. Experienced with Claude & OpenAI APIs, MLOps (MLflow, Docker, FastAPI, Grafana), and Full Stack development — with a proven record shipping AI products independently and in team environments.

TECHNICAL SKILLS

AI & LLM: Claude API, OpenAI API, LangChain, RAG, Prompt Engineering, PyTorch, Scikit-Learn, Hugging Face, Fine-Tuning

MLOps & Cloud: MLflow, FastAPI, Docker, Prometheus, Grafana, AWS Cloud, Ollama, Python, PostgreSQL, REST APIs, Git

Full Stack & Automation: n8n, ManyChat, Xendit, ReactJS, Next.js, PHP 8.2, Firebase, Supabase, Web3 APIs, Lua (Roblox Studio)

WORK EXPERIENCE

AI Engineer (Internship) · FlyRank AI · Remote

Jul 2026 – Aug 2026

- Engineered scalable LLM-powered content generation pipelines using Python and RAG architectures to automate SEO workflows, driving a 35% increase in AI search visibility (AIO) and accelerating organic traffic growth for client platforms.

AI & Software Engineering Consultant · Independent · Medan, Indonesia

Aug 2024 – Jun 2026

- Spearheaded 4 end-to-end AI applications leveraging RAG architectures and Claude/OpenAI APIs, reducing manual data extraction and processing time by 60% for freelance clients.

Game Developer · Exstore.id · Remote

Nov 2025 – Jan 2026

- Led end-to-end development of 2 large-scale Roblox titles ("Gunung Gila" & "Mall"), implementing custom token economies and integrating SuperBiz SDK, resulting in real-time analytics tracking for over 1,000+ daily active users.

Software Engineer Intern · Ministry of Law & Human Rights · Medan

Jul 2024 – Aug 2024

- Developed a government document automation tool (CodeIgniter4 & PHP), cutting manual processing time by 40% within a fast-paced 4-week sprint.

KEY PROJECTS

CiteReady — AI Search Visibility Auditor [Project Link](#) · [Github Source](#) | Next.js · OpenAI API · Vercel

- Developed a pioneering SaaS tool using Next.js enabling content creators to optimize web pages for LLM citation engines, resulting in dynamically restructured content that increases citation likelihood in AI-generated answers.

Bilingual Agentic AI Dataset (1,182 pairs, ID-EN) [Project Link](#) | Python · Ollama · Hugging Face

- Synthesized a comprehensive ID-EN dataset of 1,182 pairs across 8 agentic AI categories via local Ollama models; published globally on Hugging Face as an open-source baseline for cross-lingual LLM fine-tuning.

MLOps Churn Prediction Pipeline [Article](#) · [Github Source](#) | MLflow · FastAPI · Docker · Grafana

- Engineered a production ML pipeline for Telco Customer Churn with full experiment tracking (MLflow) and deployed it via Docker, establishing real-time monitoring dashboards (Prometheus/Grafana) to ensure 99% model uptime.

GrowMate — Collaboration Platform [Project Link](#) · [Github Source](#) | ReactJS · PostgreSQL · REST APIs

- Architected a full-stack platform matching users by shared skills and goals, with real-time matchmaking algorithms and role-based security using PostgreSQL.

EDUCATION

Universitas Sumatera Utara — B.Sc. Computer Science

2021 – 2025

GPA: 3.78/4.00 · Cum Laude

INTI International University, Malaysia — Student Mobility / MBKM

2023 – 2024

Humanitarian Initiative Exchange Program

CERTIFICATIONS & ACADEMIA

- Anthropic Academy (18/18 Courses — Full Completion)
- ML A-Z & Data Science Mastery (Udemy, 2024)
- Dicoding: 8 Courses — AWS, Gen AI, Spec-Driven Dev & more
- Junior Web Programmer (KEMNAKER RI, 2025)
- AWS AI Academy 2026
- English for IT (CISCO Networking Academy, 2025)

LANGUAGES

Indonesian: Native / Full Professional Proficiency | **English:** Professional Working Proficiency (IELTS Target: Band 7.0+)
